Orvieto upside-down
duration: half day

To visit Orvieto is like going through the past, as its stratifications tell us about millennia of history. From the magic of its thousand caves hidden in the crag, to the medieval splendours of the historical city centre. Perched on a massive volcanic rock, the city of Orvieto seems to rise like a long island in the middle of the verdant Paglia river valley.

Orvieto is one of the most extraordinary and interesting towns in Central Italy, thanks to its position, its architectural wonders (like the beautiful gothic façade of the cathedral with precious decorations and its frescoed chapel), the fascination of the underground maze of tunnels and the famous Saint Patrick well.

The visit includes:

- Visit to San Patrick's well, which can also be arranged at night-time;
- Visit of Orvieto Underground;
- Guided tour of the Cathedral, including the Chapel frescoed by Luca Signorelli;
- Visit and wine tastino at the Pozzo della Cava
