

Todi, a small treasure from the Middle Ages - visit to the cultural park duration: half day

The cultural park offers its visitors three thematic itineraries, escorted by qualified staff. The tour shows a special facet of Todi, including places otherwise unreachable and which were recently renovated.

Medioeval Todi

The itinerary goes along the genesis of the town planning and the architecture of a typical medieval town.

On the tracks of Jacopone

The route is dedicated to the visit of places closely connected with Jacopone da Todi, a famous vernacular poet who lived in the 13th century.

Todi between Renaissance and counter-reformation

A visit to a series of monuments built between the beginning of the 16th century and the 17th century. These monuments changed the city planning contributing to the definition of its current layout.
